<b>Comments</b>	<input type="text" value="As someone who no longer lives in the area but has followed the fortunes of the team for over 30 years, this is a huge opportunity to secure a world class facility that can benefit all of the local community. The football club does an immeasurable amount of the local community, these facilities would allow them to do even more and help provide a facility that can be the pride of the whole of Oxfordshire. It is also an opportunity to show what sustainable development can look like, again something that can be beacon for the whole region and one that others look to and follow.&lt;br/&gt;It should not be under estimated the positive impact that a successful football club can have on the population and the local economy, the knock of effects of this development can be huge, equally if the football club was forced away from the city or, worse, out of business then the impact of that on the region would be equally negative."/>
