Comments	<input type="text" value="Dear Planning Committee
I would like to add my support to this application for a new stadium to house Oxford's football teams and associated activities.
This development would provide a fantastic opportunity for ease of access to the site, especially on match days, by using public transport instead of cars and would therefore see a large reduction in vehicle movements and journeys.
In addition to the sporting activities, there will be provision for community events, job creation, and improved bio-diversity for the site.
I believe this would be a huge benefit to the community and the sporting groups that will use the facilities and would urge the committee to approve the application.
I look forward to being able to attend future matches travelling by train, rather than by car!
Yours faithfully
Richard Braclik."/>
