Comments	<input type="text" value="The club has suffered at the hands of the current stadium owner for long enough. The city council really should have stepped in and ensured that Oxford United could have the kassam stadium as a designated sports area. However that hasn't happened. It's evident that the future of Oxford United lies heavily on this stadium and the council should support this proposal for the future of the club and all the locals who have loved the club for generations. Investment in the local football team is good for the city. You don't have to look far in the UK to see cities that thrive because their football team is well supported within the city."/>
