<b>Comments</b>	<input type="text" value="I believe that the proposed site of the new stadium is perfect in respect of access, and offers a great oppertunity to utilise public transport for supporters, both home and away. I and many other fans from the East of the city, and outside the county, will be only too happy to utilise the train from Bicester / Islip to avoid the hassel of using the car and finding a parking space. I'm certain that some of the current Park and Ride area or adjacent land can be developed for catering / entertainment facilities that will not only benefit the match day public but could also give Kiddlington some much needed leasure facilities. Imagine a bowling alley, cinema, food outlets walking distance from the bottom end of the village where nothing currently exists. Let's show some ambition to improve the area, along with providing a state of the art, green, stadium and sporting facility for all to enjoy and use, every day of the week. What has been done to upgrade and improve Stratford Brake over the years ? Nothing, and it's been a finance drain on the Parish Council for years. It's a one off chance to give the local sports clubs a much needed boost, thus improving the odds of getting our youth off of their computers and back on the playing fields of the County. Local / village sport is dieing, I've seen it first hand, let's give it a boost."/>
