Comments	<input type="text" value="I whole heartedly support the stadium build, it's so important for the county's only professional sports team to be able to continue, what Oxford United offer to so many people goes far beyond 90 minutes every other Saturday, it gives people a social outlet a release from daily stresses and speaking personally help with my mental well being, it goes beyond the first team think of all the young people who attend the club's academy's for boys and girls and also the courses offered by the club and teams from walking football to disabled teams. Should the council refuse permission you should be ashamed of yourself. It would be so like this county to turn down the opportunity to give first class facilities such like the planned, please consider the points raised as well as the economic benefits and the green positives. A chance like this is once in a lifetime. Please ensure you do not remove a county institution from being in existence.
The Lib Dem and green councillors have acted in a disgusting manner and given their clear bias should be nowhere near the planning process, they have brought shame on public office"/>
