<b>Comments</b>	<input type="text" value="This is a solid , eco-led and well considered application that will secure a top class football and event stadium for Oxfordshire for generations to come. Its proximity to Oxford Parkway station ensures it is as easy to access as it could be using public transport and active travel. There is simply no where else in the area that it would make sense as a build site for the stadium, this is it. If this build doesn't go ahead Oxford United could disappear which is in no-one's interest."/>
