Comments	<input type="text" value="I wish to object to the current development. I am concerned about the impact this will have on the local area during construction of the stadium and during match days when the stadium is in use. I am not convinced that the majority of football supporters would use public transport to reach the stadium. This would mean that supporters would be looking to park in Kidlington as there will not be sufficient parking at the stadium. This would cause considerable disruption to the local residents. I am also concerned about the proposed road closures and the impact that will have on local residents."/>
