A professional football club is essential for Oxford. Oxford United are so much more than a football club. Oxford United also do wonderful work in the community. My son regularly attends the excellent holiday football training courses that they run for boys and girls. The courses are superb for improving children's confidence, skills and encouraging a healthy life style, for all areas of life, not just football.
I think closing the Oxford Road for periods before and after matches is an excellent idea. It will reduce congestion, reduce pollution and increase safety. This is indeed the same aims as the LTNs and bus gates the council is implementing in Oxford. People who do not like the road closure can travel by bike, as we are being expected to do in Oxford. If people must travel by car there are alternative routes they can use.
The stadium and facilities will be a flagship for Oxfordshire and the UK showing the way forward for environmentally sustainable developments."/>
