| Comments | <input type="text" value="As a past resident of Kidlington for many years, now living in Banbury, I am strongly in favour of this proposal for a stadium. The local community would benefit hugely from this high-class facility and the positive impact it would have for the local residents, facilities, economy and improvements to stratfield brake. The transport links to the site are ideal with great train and bus links. I understand some concerns regarding possible traffic management diversions, which may cause some disruption to local residents. However, in reality this is for a short period of time and may impact journey times by minutes if they so happen to be travelling at corresponding times - hardly a deal breaker for such a beneficial facility!"/> |
