<b>Comments</b>	<input type="text" value="Stratfield Break is far too small an area for a football stadium. It is the last piece of green belt between Kidlington and Oxford, and if construction goes ahead it will destroy the biodiverse wildlife habitat. During construction there would be road closures and diversions causing traffic jams and gridlock. Likewise after construction match days would also cause traffic jams and parking issues. This is a totally inappropriate location for a new stadium. The Kassam Stadium is available and far more suitable."/>
