Comments	<input type="text" value="We have been supporting Oxford United for over 40 years and due to lack of public transport have driven to every game. There is a regular bus service to the proposed stadium which will be good for us and good for the environment. The vast majority of fans (90%) drive to the Kassam; the location of proposed stadium will enable fans to use public transport, both bus and trains, and reduce car use to around 10%.
Oxford United womens team are not allowed to play at the Kassam, in this day and age this is quite disgraceful.
The local economy will benefit by creation of hundreds of new jobs both during and post construction works.
A word of support for my fellow fans, it seems we have been portrayed in a quite a bad way by some people, we are in fact quite normal, decent people, like anyone else - but just happen to like football!"/>
