<b>Comments</b>	<input type="text" value="I am writing to give my support for the proposed Oxford United stadium at the triangle near Kidlington. I believe it will be an asset to the community for generations to come. Some of the objections I have heard, I believe can be overcome. I over the years I have been to many football grounds in this country, most of which have been larger than the one proposed, and most of these manage the traffic issues without too much inconvenience to the general public. Generally football grounds are used once a fortnight on a Saturday, and on occasions a Tuesday/ Wednesday evenings during the football season. There is obviously more traffic during these times, but if managed correctly it can be dispersed quickly, especially when you have access to major roads, as we have. The A34, A40, A44 and M40, are all within a short distance of the site, and the park and ride and the railway station should make a difference amount of traffic coming to the stadium. I believe all parties should come together and rather than objecting to everything, Work out a plan that suits everyone and make this wonderful opportunity a reality."/>
