Comments	<input type="text" value="Dear Sir/Madam,

I would like to please object to the construction of the new stadium.

I have two young children and having recently moved to Banbury Road from Sandford-On-Thames (where the Kassam stadium is), we have first hand experience of the disruption the match days cause. There is increased traffic, increased pollution and potential for drunk and aggressive football supporters to be walking around our neighbourhood and scaring our young family.

I want to object to the construction because of the impact it will have on the environment and the loss of green belt and surrounding green areas to allow for the stadium and parking etc. The loss of nature will have an impact on the air quality and the natural habitat of many animals.

Why can't the Kassam stadium be renovated? Surely this would be cheaper and there is already an established working stadium with known parking and transport links.

Best wishes,
Dr Alex Choa
