Comments	<input type="text" value="The stadium move would take us from an environmentally unsustainable stadium that is car-dependent, causing traffic congestions to an all electric eco-friendly built and run stadium at the heart of public transport hub.
The new stadium would be a community hub to inspire young people, lead the way in health promotion, provide local jobs and investment, and to provide world class facilities that reflect our county's world renowned image and reputation for innovation.
The economic benefits for Kidlington, both on match days for local businesses and throughout the year."/>
