Comments	<input type="text" value="I wish to raise my objection to this planning application
The Highway Infrastructure around Kidlington is already overloaded and with future changes to the North Oxford Corridor together with planned house building programmes and Golf Course changes around Kidlington and the proposed closure of Sandy Lane will make it impossible for Residents to move around Kidlington especially on match days.
After many years of putting up with the Grain Silo eyesore we are now expected by the supporters of this project to put up with another by the proposed plan of a Football Stadium Complex.
I don't understand why the need to build another Huge Stadium Complex when one already exists and the offer has been made to OUFC to stay at their current location."/>
