Comments	<input type="text" value="Oxford United Football club are such a huge part of this county with the club being followed by so many that live in it, as well as amazing youth programmes that work with the schools to educate and bring joy to so many children in the county. This has been something I have been so lucky to grow up with, and now watching my son do the same means that I believe it is huge importance that the club can go ahead with creating a new home where we can share many more happy and joyous memories together, rather than watching the club stadium hop and nowhere to call home and create a completely unsustainable and concerning future for the club. We have already seen the likes of Bury FC cease to exist and it would be an absolute disaster if Oxfordshire lost the one Club they have in the football league. The new plans for the stadium are nothing more than positive and reassuring for fans and this should be supported by the council who should clearly see how important this clubs future is to the community."/>
