Comments	<input type="text" value="As a life long Oxford United supporter it is very important for me and my family that the new stadium goes ahead. My late father supported Oxford when they were Headington United and continued to support them until he sadly passed away 2 years ago. He took all four of his children to watch Oxford and I personally enjoyed so many great times watching them particularly at the Manor. I took my own children also to watch them at the Kassam. I would be extremely upset if Oxford do not get this new stadium as without a stadium they will more than likely go out of existence. We need to keep this football club for all the generations of families that can hopefully grow up to support their local club through the highs and lows of football as I did. It also is good to give youngsters an interest in something and to feel part of a club. I really hope that the new stadium goes ahead, so please can you make it happen."/>
