Comments	<input type="text" value="This is not a site to build a stadium. OUFC have tried to pull the wool over everybody's eyes and know full well that road closures will cause traffic chaos, the road infrastructure in Kidlington can barely cope on a work day now so a commercial development of this size and scale is ridiculous.

The stadium will will destroy valuable biodiversity, and will be a nuisance to local people.

Oxford United can barely scrape together 10000 fans so why do they need a stadium of 16000 in a village ? They've had years to find a new spot so all the crap about needing somewhere to go because they're being booted out is just ridiculous. There are lots of sites that are more suitable than the triangle.

Most OUFC fans don't live in Kidlington so why they think they have more of a say than local people speaks volumes."/>
