Comments	<input type="text" value="As a local resident, I object on many grounds:
Why even build it - When they already have perfectly good stadium at the Kassam, that they are not been asked to leave, as they state.
Why on green belt land - this is one of the last bits of land between Kidlington and Oxford and a key environmental site.
The traffic chaos it would cause - this area is already an area that has traffic issues, plus the extra houses planned and. Now an extra stadium! The roads can't cope.
The shutting of Oxford Road - how can they even think about shutting this major artery road for every game.
Parking - the plan's have completely inadequate thought about parking, to say most fans will use public transport is a joke and just PR stunt to get their plan through! All the streets around here will be full of cars!
Green washing - the plans are trying to say it would be eco friendly! Lies....
Not listening to locals - the people of Kidlington voted, they don't want it but they are being ignored - Why? Who is getting the backhanders?
Scale & Size - a development of this size goes against all the local plans - so again why or how has it got to this stage.
In summary, this plan is ill conceived, in the wrong place and not even needed!
So why spend 161m on it that no-one in the local area wants when you already have a stadium at the Kassam that you can stay at?"/>
