Comments	<input type="text" value="The idea that the busy Banbury road could take even more traffic is a non starter. The Water Eaton car park is often full already and could not take the extra vehicles.. The cycle track is very poor. For my health, I need access to Kidlington supermarket and Gosford sport centre and Kidlington people need access to Oxford. For our health and the wildlife we need that green gap to remain. The heavy lorries required for building would also cause extreme problems"/>
