Comments	<input type="text" value="I would like to add my support, and that of our household, to the relocation of OUFC to the triangle site in Kidlington. OUFC is a vital part of the whole community of Oxford and a city of such note needs a decent football team!
The proposal of the new site is to be greatly commended both in its diligence to the local community and environmental concerns. The stadium has to move or the club will fold. The current location is not sustainable nor is it environmentally sound, having so few public transport links.
Although the proposed ground will be almost on my doorstep, I am not a NIMBY! I am not an OUFC supporter but I do have enough vision to see the benefits this will provide to the city and particularly the sporting community."/>
