<b>Type</b>	<input type="text" value="neighbour"/>
<b>Comments</b>	<input type="text" value="I and my family fully support Oxford United's application to build a new stadium. The club is a wonderful community asset which has enabled our family and many friends with families to enjoy the community atmosphere at matches. The club is very proactive in supporting grass roots sport and openly encourages all ages and all genders and everyone in our society equally and is not only providing entertainment to many people but is a very well run club and the whole experience is family oriented and deals with any issues which may arise in a professional and courteous way to ensure that the whole family can enjoy attending. The club has a very modern and forward thinking approach to encouraging and helping fans to use environmental friendly transport and we currently use local buses to attend. This club is crying out for support from the local council and it is your responsibility to ensure that the stadium is correctly built and run with the local community in mind, but you also have a responsibility to ensure that you encourage such a community asset to survive. Many councils would be only too pleased to support such a wonderful facility and should you fail to support such a wonderful community asset as this application is then you will have failed in your capacity to understand how much value and pleasure this club provide to local residents. I ask you to please support this application and allow Oxfordshire to have a sport community asset to thrive for the benefit of all. Thank you"/>
