Comments	<input type="text" value="I fully support the plans to build a new state of the art stadium for Oxford united as I believe that the economic growth to the surrounding areas would be of a huge beneficial impact not only for the local area but for Oxford and Oxfordshire in the years ahead. For the sporting sides the stadium would open new avenues for lower league clubs down to grass root sports furthering the potential for the young and upcoming stars of the future. For the economic side the income generated from the football games etc with the ease of travelling to the venue helping reduce carbon footprints less traffic causing vast pollution etc."/>
