Comments	<input type="text" value="I've read may comments over the weeks about the possibility of problems moving the stadium to Kidlington will bring to the area. Oxford United support many different causes over the county, supporting mental health charities and encouraging keeping children and adults healthy through sports. To move the club to the new state of the arc stadium will give them chances to extend this to give families opportunities in the Kidlington area. Moving the stadium to the triangle near to the railway station gives us all supports to use public transport. There must be a way to agree on the issues with the road closure that can satisfy all parties. I've supported OUFC since the 1960s, not all fans are young and trouble makers as portrayed by some, in fact I've not seen any major problems. Many of us are older who attend matchs with our grandchildren. Who should be given the chance to follow the only local football club in the county as we have all been able to. Thank you for taking the time to read this"/>
