Comments	<input type="text" value="I 100% support the new stadium plans.
Oxford United are such a well loved and supported side with real heritage. The years of being over a barrel due to the Kassam situation have been disastrous for the club financially and we have been the laughing stock of the football league since moving there for only having three stands in such a soulless shell of a ground. Having our own ground and one to be genuinely proud of would be such a massive boost for all involved in the club, the community would no doubt benefit if the submitted plans get to go ahead, I can't see any reason for it not to be allowed.
Oxford United are a club to be cherished, the city should have a state of the art stadium, Oxford is such a famous city globally, it's only fitting it's major football club should have a stadium to match the City's reputation.
I honestly don't see a future for United at the Kassam, not going ahead with the new stadium I fear will be a fatal blow to the Yellows.
Please give us hope."/>
