Comments	<input type="text" value="I understand there will be a lot of local residents rejecting the application, unless your an Oxford United fan who would want a stadium on there door step!
But in terms of what it can bring to the community and to local business is greater, and in terms of traffic as long as Oxford United work with national rail in offering affordable and sustainable transport or make the club include price of travel in the match day ticket and then provide free travel this will not course a massive influx of traffics on match days, It's about time our beautiful and great city have a football team we can be proud of with a stadium we can be proud of.
Unfortunately kassam has ruined the club by the way he operates and as a council you should take some blame for allowing him to do so, if you do approve this planning application I hope the council put in place a restricted use of the kassam stadium to only ever be a stadium for hosting sport only."/>
