Comments	<input type="text" value="Even though I now live in Buckinghamshire I was actually born and raised in Kidlington. I have been a life long supporter of Oxford United (50+ years) and I just can't imagine a situation where the club no longer exists in Oxfordshire.

I support the location of the proposed stadium - due to it's good transport links and it's relative proximity to the City of Oxford. The proposed stadium will be a fantastic asset for the whole community - and the way it's ownership is being set-up will mean it is there for the community and will mean the club is never held to ransom by a business man with no interest in the actual football club.

Oxford United as the senior football team for the county is so important - and CDC should be honoured to be able to site the club within their area.

Please support the club and it's thousands of followers - by granting permission for the proposed ground on the site in Kidlington"/>
