<b>Comments</b>	<input type="text" value="Having attended most home games for over 30 years whilst living out of the area for most of that time I am excited at the prospect that the new stadium that is proposed will at last give me the first viable option of utilising public transport to attend. The proposal is looking to provide world class facilities also for the first time which Oxfordshire on the whole could be proud of and utilise. This is not just for the fans of OUFC. I am also glad that the club are taking an eco friendly approach to the build which should provide a sustainable existence for many decades to come. Please take a positive view on this proposal for the sake of the club, the fans, the community and Oxfordshire as a whole."/>
