Comments	<input type="text" value="Why build on an already congested road which will create more traffic, pollution and issues in an already very busy area without the needed infrastructure. Also, taking away another bit of green land is destructive to the local environment. They have a very good home at the Kassam and a new deal should be negotiable with the owners to ensure the club can continue to play there. Moving further away from the city, making it harder to get to the stadium than now and causing more disruption is not what this already congested county needs."/>
