Comments	<input type="text" value="The proposed football stadium is an over-development of an area that already has far too much development taking place in the near future. There is planning permission in place for hundreds of houses already, and mostly in the green belt. Also, the proposed site is much too small for such a development, and does not allow proper access for pedestrians or vehicles. The planning proposal also includes regular closing of the main A road between Oxford and Banbury to allow access by pedestrians, which would be a complete nonsense and should rule out this proposal just on its own."/>
