Comments	<input type="text" value="I've supported Oxford United from the Southern League all the way to the old First Division, and to that magical day in 1986 at Wembley Stadium where 40,000 other Oxford United supporters joined me to witness us lift the cup. This is a tremendous opportunity not only for Oxford United but also for the county of Oxfordshire to possess a stadium and facilities that are a source of pride. Being located next to a transport node, the site will greatly assist with traffic flow, unlike the Kassam Stadium which has a bare minimum of public transport options. Despite concerns about the loss of biodiversity, I believe this will not be the case, as the development is required by law to achieve a 10% net gain, which it will. The economic impact on the local area will be a significant boost for local businesses. Failing to approve this development would be an absolute disaster, effectively putting a nail in the coffin of Oxford United. I urge you to see sense and approve this development."/>
