Comments	<input type="text" value="The creation of a stadium will cement the existence of Oxford United Football Club.

The creation of jobs to promote what will be one of the most sustainable football stadium builds in the world will be of benefit to the local community. Moreover, the stadium will enforce this on match days with supporters (home/away) attending local businesses.

The growth of the club - on and off the pitch - means this economic benefit will continue to improve with years to come.

It is important the build and existence of the stadium is sustainable - and the plans proposed and considered by the club evidence that this is their number one priority.

Being able to call the new stadium the new and permanent home for the club would make fans alike feel incredibly proud of such a fantastic club."/>
