Comments	<input type="text" value="I am in support of the proposal. A football ground under the ownership of the club ensures that's Oxfordshire will still have a professional football club. At present the existing ground rental approach doesn't allow the club to generate as much revenue as other professional clubs. The revenue the club does generate is put back in to youth and women's teams as well as local community projects.

I have been travelling to Oxford (season ticketholder) for 25 years, regular spending money in and around the city centre. A professional football club with improved public transport links will continue to bring outside spending into the city and surrounding areas."/>
