Comments	<input type="text" value="The Oxdord United proposed being requested should be supported. The employment created will be supporting local people, the facilities will be there for local people who don't have to support or have an interest in football. The support for the local community on a match day bringing in money and profit to Kidlington and surrounding areas cannot be underestimated. But more so the joy that many people get from watching their local club play maintains their well-being, their mental health, provides friendship and support that far outweighs anything else. The children who will be supported and engage with activity to follow their hero's is way we need to harness. We need to support the stadium and guaranteeing the long term future of Oxford United for generations for social, health, economic reasons and because it's the right thing to do! Oxford United has been in existence for over 100 years and cannot be allowed to disappear. The work that they do in the community to support all groups is invaluable and without Oxford would be poorer - not financially specifically but as a prosperous area where people want to live, where they are proud of the city/ county, and where they feel supported and listened to. Too many people in positions of decision making seem to be listening to the minority rather than thinking strategically what the local area needs and what is in the best interest which is disappointing and by supporting the move to The Triangle and looking at the bigger picture for the local Area of Kidlington AND the county of Oxford you will be securing a piece of history and making the right decision."/>
