<b>Comments</b>	<input type="text" value="The triangle is far too small to accommodate a football stadium. Road closures on match days or any other event days are not acceptable. It would impact emergency services and Kidlington residents would be unable to leave the village, a village that we elected to keep as such a few years ago. Football fans will park around the streets of Kidlington as cars and vans can bring more people than a single person train ticket, so are more economical for them. Flooding is a problem in Kidlington as the sewers cannot cope with the infrastructure already in place so how is it going to cope with the extra demands of a football stadium, the flooding we have to deal with will be worse than it is now. This will also be fatal for wildlife as their habitat will be destroyed. The noise, disruption and increased traffic will drive wildlife away resulting in more fatalities on the roads. We need to keep our green space."/>
