Comments	<input type="text" value="I strongly object to the proposed application for Oxford United football ground. This will cause further traffic into what is essentially a village. there is no doubt that there will be widespread parking issues all around the village as people tend not to use designated parking areas and seek to use free parking areas thereby blocking peoples access into their own driveways.
it will also result in the loss of the greenbelt and affect the wildlife that is currently there in that area.
Kidlington does not want to merge with Oxford but by building the stadium and hotel so close it will all become one area.Kidlington wants to remain independent from Oxford.
The Kassam Stadium should continue to be used by Oxford United they should purchase that instead of spending untold millions building a new one when they have a perfectly good one in the area, aren't they already a club in debt? So how can they afford this?
By building this stadium several things will be affected. There will be traffic jams? parking issues and noise pollution, loss of the greenbelt, closure of the Kidlington gap ,,"/>
