<b>Comments</b>	<input type="text" value="The proposed new site is an excellent location to build the new stadium to meet the sustainable criteria. The closeness to Oxford Parkway station would see numerous fans, home and away ones as well, travel by train. With the stadium being all electric it will be the greenest in the country and will be a flagship for the whole of Oxfordshire. It will also boost local economy massively and give people from Kidlington much improved facilities from a sporting and health perspective."/>
