Address	<input type="text" value="128 Ashton Road, Golborne,, Warrington, Cheshire"/>
Type of Comment	<input type="text" value="Support"/>
Type	<input type="text" value="neighbour"/>
Comments	<input type="text" value="Oxfordshire's only football club has the chance to flourish, but only if the new ground is built and built A.S.A.P.
The new stadium offers excellent access with sustainable transport means, being located adjacent to two bus routes, Oxford Parkway station, the A34 and on a cycle highway. Supporters have the ability to travel to matches via sustainable means. The facilities available for the local community to use on a daily basis, such as the health club and gym must be invaluable to the district council, who won't have to fund it. The ecological benefits, such as rainwater collection system, solar panels and green roofs will lead to it being the most environmentally sustainable stadium in the country, and must set an example to the rest of the country of how construction can be done in a sustainable way.

As a fan of OUFC for more than 60 years now, I have followed them far and wide, making so many friends along the way, raising 3 sons who have followed OUFC since the days of the Manor ground. Now their children also follow the U's. This club brings so much joy to the people of Oxfordshire and beyond.
Despite unfounded claims by a few, most of whom are not even Oxonians, the fact is that the club cannot remain at the Ka\$\$am stadium, it simply is not an option. Without this new ground, a ground that Oxfordshire could and should be proud of, our club will die, can you truly allow that.

You cannot deny that there is overwhelming widespread support for this project. so do not delay. Approve the planning application to safeguard the future of the county's only professional football club, and put Oxford back in the driving seat for sustainable development."/>
