Comments	<input type="text" value="As an Oxford exile, the football club is the one proud link I have to the county where I was born. To get to the current ground is quite frankly, a mess. With the newly proposed ground being the second closest to a railway line it will make travelling to watch the club so much easier, greener and stress free. With all the eco/ green building techniques and facilities it'll be the envy of many other clubs. Growing up in Oxford we had nothing at grass roots level and for future generations to have this ground to go and Support their team will really inspire them. Please let the club have this one thing"/>
