<b>Comments</b>	<input type="text" value="I would like to comment on the proposed new stadium for Oxford united. This is about so much more than the football club. It is about developing a Centre of community for the whole of Oxfordshire, particularly for sports clubs, young people and the future. I have seen (my wife is a teacher at our local school) the charitable work the club has put into local schools, reaching out to families and organisations around the county. I am sure it goes without saying that the stadium will create new jobs, incoming business and a financial boost for the local and wider area. The Site is well placed for connectivity and particularly public transport options for a wide area.&lt;br/&gt;I completely understand that there are issues and worries with certain sections of the application for transport and the local community, for which I also have concerns but fully expect all due process to take place. With a will for all parties to be positive and communicate I am certain solutions can be agreed upon. I may be too old to make use of all the facilities that would be on offer but this is for the City, the whole of Oxfordshire's community, the young people and the future. This is an opportunity not to be missed."/>
