Comments	<input family."="" football"="" it's="" just="" type="text" value="Oxford United football club is so important to the local area.

I know it's not everyone's cup of tea, and if people don't like it they won't understand.

Oxford United is a family, a community and a release for people in Oxfordshire. I've made many memories at Oxford United, with my family and Friends. I've recently had my first born, and cannot wait to introduce him to the amazing people that are involved in and around the club.

However I fear without this stadium, he won't have that to go too. Football is a cruel game with financial peril round every corner, Oxford United simply can't stay at the Kassam. This new home is the best opportunity we have to make the football club a place to be proud of!

I understand some of the concerns put forward about the new stadium and the location, however the plans in place are very modern and environmentally friendly to help accommodate others worries.

Please help us keep this club alive. It's not "/>
