<b>Comments</b>	<input type="text" value="This is a vital resource for the community. Oxfordshire and Oxford United can lead the way in terms of sustainable sporting venues on a world scale. Having studied the plans, the environmental impact would be much smaller than the existing stadium, which is not able to be used by OUFC and was never fit for purpose. We have an opportunity to build a facility to be used and enjoyed for generations to come and be one of the most progressive local authorities in the UK if not the world. In addition, the revenue and job creation this would bring to the area is crucial at a time where financial issues are affecting so many. I strongly support this plan and urge the council to approve planning, for the sake of generations to come."/>
