Comments	<input type="text" value="I have been a fan of Oxford United for as long as I can remember and the club has and always will hold a place in my heart. This goes without saying that this is the same for tens of thousands of people across Oxfordshire. I want the planning application to be approved as the club desperately needs a new home to play football in. The stadium we have had since 2001 is so below par compared to almost every stadium in professional English football and changes need to happen.
The parties of LibDem and Green constantly contradict themselves with what they're saying and them wanting to stop this stadium from being built is going to kill our football club. Killing a football club is mental. Oxford United and local politicians in favour of it have already provided a long list of reasons as to why we should be allowed to build it. Please make the right decision."/>
