Comments	<input type="text" value="I believe this move is totally unnecessary, having a perfectly usable football stadium in Oxford (Kassam). The green belt between Oxford and Kidlington would be reduced or completely destroyed and the neighbours of Kidlington would suffer the consequences of a worse air quality and permanent noise and traffic in the area. People live in Kidlington because of what it means to live in a greener and quieter place where people's voices are listened to and one can enjoy the benefits of the countryside. The neighbours in Kidlington don't support this initiative."/>
