Comments	<input type="text" value="I am strongly opposed to these plans for the following reasons;
- increase of vehicles on road meaning traffic jams, road closures during building and gridlock in a system which is already hugely under strain.
- more air and noise pollution
- loss of more valuable green belt
- destruction of biodiverse local habitat at a time when we should be doing all that we can to preserve and protect this.

It is our green areas around cities which give them their lungs. This area is required by local communities to remain as a sanctuary for wildlife. Cherwell Council work with Wild Oxfordshire and Wild Kidlington on many fabulous projects including protecting Swifts.

We know that the Kassam stadium is available and the regeneration of the Kassam site with its available parking and accessibility is far more suited to this project.

Please don't let this stadium go ahead."/>
