Comments	<input type="text" value="This development has to be approved for the sake of our club. We are the only full time professional sports club in the county and we all need to come together and support this option. The Kassam is a bit of a dinosaur now and is a truly soulless venue, and we need our identity back and to rediscover our football club and the connection to the community. I have supported this club since we moved to Oxfordshire in 1986, and have followed them home and away, and they have kept me going through some tough times in my life, knowing I have this wonderful club to follow at the weekend. I urge you to support us in our application, to save our club and to give us a real future in our own ground and enable us to challenge for the division above and who knows going forward."/>
