Comments	<input type="text" value="Without the plans being approved and a stadium built, the club is in danger of becoming homeless. The club is so important to Oxford and it's surrounding area, and provides an important environment which unites fans of all backgrounds under one badge. The location next to Oxford Parkway promotes a greener solution with regards to travel, which would otherwise not be possible and reduces harmful emissions on match days. The stadium will clearly have a positive impact on the local economy and local sports clubs, and provide security for the club long into the future, encouraging young people to be more active and facilitating this through their community outreach, which would be lost if the club was gone."/>
