Comments	<input type="text" value="As a livelong Oxford United supporter, I am very excited about this proposed development near Kidlington. It will enable me to travel much easier to the football matches and support the community, in particular by allowing me to travel via the new rail link (East-West), and will mean that I will not have to take my car into Oxford. This is much greener and efficient for everyone.

It will also mean that I am able to support the local community much more as I will be in the area more often. This new development is essential for the football club and the community that support it."/>
