Comments	<input type="text" value="I fully support Oxford United's application to develop a new stadium on the site known as the Triangle. The stadium will be a major landmark for the Cherwell District. It will also use sustainable building techniques and technologies to reduce its carbon footprint. Public access via walking, cycling and public transport is a major part of the design, and a key feature of the site location. If allowed to happen, this stadium could be a national leader in sustainable stadium design, and with it a major win for the area."/>
