Comments	<input type="text" value="This kind of development in the community could offer so much new work and opportunity to a village and area forgotten by politicians and local policy makers. The last decade we've had to watch as more young people have had less opportunities and promotion to exercise, and far less casual work opportunities. These have led to a community of forgotten youth, soaring crime rates and general consensus of lack of any kind of opportunity.

This stadium could reignite this village, and whilst it may have occasional drawbacks in terms of slight congestion's on match days (once or twice a fortnight), partnerships with the football clubs, sponsors and hospitality businesses will inject more investment where we need it most.

This stadium will bring our local villages and towns together, attract much more investment and opportunities at a far smaller cost than what the objection are making out to be. I think it would be a huge mistake to not allow this to happen."/>
